SUPPLEMENTARY INFORMATION:

Background

On July 1, 2011, the Department published the notice of initiation of the sunset review of

the antidumping duty order on certain stainless steel wire rods from India (wire rods)¹ pursuant to section 751(c) of the Act. See *Notice of Initiation*.

The Department received a notice of intent to participate on behalf of Carpenter Technology Corporation (the petitioner) within the deadline specified in 19 CFR 351.218(d)(1)(i). The petitioner claimed interested-party status under section 771(9)(C) of the Act as a manufacturer of a domestic like product for the proceeding.

The Department received a complete substantive response to the *Notice of Initiation* from the petitioner within the 30-day period specified in 19 CFR 351.218(d)(3)(i). The Department received no substantive responses from any respondent interested parties. In accordance with section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), the Department is conducting an expedited (120-day) sunset review of the antidumping duty order on certain stainless steel wire rods from India.

Scope of the Order

The merchandise covered by the antidumping duty order is wire rods, which are hot-rolled or hot-rolled annealed and/or pickled rounds, squares, octagons, hexagons or other shapes, in coils. Wire rods are made of alloy steels containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. These products are only manufactured by hot-rolling and are normally sold in coiled form, and are of solid cross section. The majority of wire rods sold in the United States are round in cross-section shape, annealed, and pickled. The most common size is 5.5 millimeters in diameter.

The wire rods subject to this order are currently classifiable under subheadings 7221.00.0005, 7221.00.0015, 7221.00.0030, 7221.00.0045, and 7221.00.0075 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided
